

IN OCTOBER...

In October, we will be wrapping up Chapter 2, quickly touching on Chapter 3, and beginning Chapter 4. Chapter 2 focuses on solving linear equations. Chapter 3 will focus on solving linear inequalities. This chapter is only 3 days long, so there will be a brief test, and then we will dive into Chapter 4, which looks at linear functions. Chapter 4 will take us into November.

REMINDERS

- ✓ Students should seek additional support 9th period if they are having trouble completing daily HW
- ✓ Students can visit the ALC during study halls to receive help on HW, test corrections, or quiz/test preparation
- ✓ Students and families can find daily HW and assignments on the HW Doc on my Class Website
