Algebra 2

THIS MONTH

In December, Algebra 2 will start and finish Chapter 8, which is a very short unit, focused on simplifying and solving rational expressions and equations. The Chapter 8 Unit Test is scheduled tentatively for 12/11.

Finally, we will begin Chapter 7, which will take us into January. Chapter 7 focuses on exponential and logarithmic functions. This is a long chapter that will span break. It is critical students continue to review nightly so that they do not forget what we learned at the beginning of the chapter, as we progress through the unit. We will take several "mini quizzes" throughout this unit that will be about 2-6 questions a piece. There will be no mid-unit quiz, since winter break splits this unit in half.

CONTACT ME

It was nice meeting so many of you at November Parent Teacher Conferences! Thank you for taking the time to come.

If you missed conferences, or if you ever have any questions or concerns, please do not hesitate to reach out!
